← Emory University →

OVERVIEW (Sourced from website)

Emory University, a top-ranked private institution recognized internationally for its outstanding liberal arts colleges, graduate and professional schools, and one of the world's leading health care systems. Emory scholars and experts generate more than $572 million in research funding annually while also maintaining a traditional emphasis on teaching. The University is enriched by collaboration among its schools, centers, and partners.

Program Objective: National
To expand knowledge about the dangers of fecal contamination and develop exposure assessment methods for low-income urban environments

Program Objective: Odisha
To provide rigorous evidence of the effectiveness, cost-effectiveness and mechanism of action of the Gram Vikas sanitation program to end open defecation and yield positive health outcomes in rural India

ORGANIZATION OVERVIEW

A sanitation system is to protect and promote human health by providing a clean environment and breaking the cycle of disease. In order to be sustainable a sanitation system has to be not only economically viable, socially acceptable, and technically and institutionally appropriate, it should also protect the environment and the natural resources.

PROGRAM 2 ⌄   KEY PEOPLE 👤

A sanitation system is to protect and promote human health by providing a clean environment and breaking the cycle of disease. In order to be sustainable a sanitation system has to be not only economically viable, socially acceptable, and technically and institutionally appropriate, it should also protect the environment and the natural resources.
