Key Perspectives of SuSanA

1. Global Perspective
2. Scaling-up
3. Grass-roots perspective
4. Innovation KM Perspective
5. SuSanA's Nature

The screenshot shows the SuSanA website interface. At the top, there's a header with the logo and a navigation bar with categories like 'Resources for: Education, Practitioners, Journalists'. Below that, a search bar is visible. The main content area shows a search for 'Case studies' with 82 entries found. A sidebar on the left contains a navigation menu with options like 'Home', 'Sustainable sanitation?', 'About SuSanA', 'SuSanA meetings', 'Working groups', 'Partners', 'SanCoP UK', 'Case Studies', 'Research', 'Library', 'Conference and training materials', 'Videos and photos', 'News, events, jobs and funding', 'Login', 'Sitemap', and 'Contact us'. The main content area displays a search result for a 2009 compilation of 24 case studies, including a summary and a 'more details' link. A world map is visible on the right side of the page.

World Water Day Wikipedia Edit-a-thon

- Where does the world go for an overview to a subject they don't know about?
- Where journalists go for an introduction to topics related UN days such as World Water Day or World Toilet Day?
- Where do local government go for information on sanitation policies they find on their desk?

Wikipedia is what the world reads! Wikipedia, while not an academic or professional source, has great value to those working on the periphery of the sector. with 500 million users a month it is the world's 5th most visited website!

The objectives of our Edit-a-thon are to:

- Edit WASH-related pages on Wikipedia
- Improve quality and quantity of information available on Water, Sanitation and Hygiene.
- Enable SuSanA members and WGs to share their knowledge, which can leverage progress towards the achievement of *SDG6*.
