SuSanA Meeting  
17<sup>th</sup> Feb 2017

# Challenges

- Urban local bodies (ULBs) lack awareness on decentralized sanitation
- ULBs have many needs that require support from a variety of expert organizations.
- Capacity building programs don't meet the needs of ULBs

# Concept

## What is it?

Collaborative effort orchestrated by NIUA

LEARNING

---

# Developing a Capacity Building Programme

## Planned

- Roles of NIUA and Partners
- Platform design
  - Customised trainings
  - Reach out to partners
  - For all stakeholders
  - Help desk for cities
- Facilitate knowledge and Experience sharing among cities

## Delivered

- Collaborative Platform of NIUA and Partners delivering :
  - FSM Orientation, Advocacy and Guidance to State level and MoUD support
- Second phase plans to expand the portfolio of support and Training Modules

# Understanding Capacity Building Needs

## Challenges

- Small towns capacity building challenge
- Dynamic programming environment at national and state level
- Limitation of Classroom Orientation training modules
- Type of Modules

## Lessons

- Aim to cover > 50% ULB sanitation staff of a state for CB
- Strengthen Institutional CB
- Identify State and ULB Priorities for FSM
- FSM State level Policy Guidelines a priority
- Don't start FSM orientation with SFD and Tool Box
- FSM Diagnostics and DPRs a CB activity
- A 3-5 year FSM CB Intervention needed. Formal Course work and Certification Courses can compliment.

Thank You
